2007 Primary Municipal Elections Audit of Voter Verifiable Paper Trail Printers

In accordance with Chapter 293B of the Nevada Administrative Code, an audit was conducted of 20 randomly selected Edge touchscreen voting machines and the voter verifiable paper trail printer that was used with each machine. The audit was conducted as follows:

- For each machine selected, the voters' selections that were printed on the paper tape were manually tabulated by a panel of two people.
- The electronically recorded results for each machine were independently tabulated using the election tabulation software.
- The results were compared.

The results of the audit showed that 100% of the time, the electronically recorded results exactly matched the selections printed on the paper tape.

The numbers of the randomly selected machines were:
